

### **REMARKS**

As noted in MPEP 714.16, an amendment after allowance which affects the disclosure or claims should:

- (A) be needed for proper disclosure or protection of the invention;
- (b) require no substantial amount of additional work on the part of the USPTO (e.g., no additional search or examination).

Here, the proposed amendment is needed for proper disclosure of the invention since it corrects the government funding/grant clause into conventional format. Further, since the amendment does not affect the claims nor otherwise add new matter, it requires no substantial amount of additional work on the part of the USPTO.
